## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 21 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The examiner has found no support for the limitation "determining the maximum and minimum limits of each of said plurality of operating parameters", "providing said determined maximum and minimum limits to the vehicle controller", "preventing said determined maximum and minimum limits from being exceeded in the aeronautical vehicle by the vehicle controller".

### ***Allowable Subject Matter***

Claims 1-6, 8, 9, 11, 12, 15, 46, 48-54, and 70 are set in a condition of allowance. The non-elected claims would be rejoined at the time the application is allowable.

### ***Response to Amendment***

The applicant's amendment after final has been fully considered and entered. Claims 1-6, 8, 9, 11, 12, 15, 46, 48-54, and 70 are set in a condition of allowance except for claim 21.

Claim 21 is rejected under 35 U.S.C. 112, first paragraph since none of the paragraphs 0014-0025 of the applicant's specification supports the limitations "determining the maximum and minimum limits of each of said plurality of operating parameters; providing said determined maximum and minimum limits to the vehicle controller; and preventing said determined maximum and minimum limits from being exceeded in the aeronautical vehicle by the vehicle controller".

The application is now set in a condition of final rejection at this time for the reason above.

### ***Conclusions***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
